## 1. Introduction

Myanmar Teacher Platform is intended as a practical learning platform for educators, learners and other interested parties to access quality learning materials, videos and other resources in a safe and secure environment. As it is cloud based, it provides a secure and accessible platform for users with any device through its responsive web design.

It offers a variety of standard learning features such as lectures, quizzes, certificates, live sessions, interactive support, M&E dashboard, notifications and offline mode features. Moreover, it also includes different roles and accessible rights to make it easy to analyses the course participants and completion data.

In this user guide, you will learn more about the use of the Myanmar Teacher Platform. The step-by-step instruction with screenshot allows you to access all the facilities and resources available from Myanmar Teacher Platform.

If you still have any questions, you can contact to us through the “Contact Us” section.

## 2. Dashboard Permission

- **Independent Learner** – The user with “Independent Learner” accessible right can browse and take the “courses” which are available for them.
- The user with an account can access the **Dashboard**. On the **Dashboard**, you can view **Notifications**, **My Courses**, change **Profile Data** and **Password**.
- To access the **Dashboard**, you can use following website URL in your web browser:  
<https://mmteacherplatform.net>.

## 3. Myanmar Teacher Platform

### 3.1. Home Page of Myanmar Teacher Platform

Home page is the main first page of the E-learning platform and there are several menus to access different pages. The graphical user interface is also optimized for ease of use and by enabling offline mode on, recently visited web pages, courses and videos while internet is connected, can be viewed when there is no internet. This platform also connects to the E-library in which you can find over 150 digital resources related teacher education.

### 3.2. Language Feature

This platform can be accessed both in Myanmar and English languages. If you want to access in Myanmar language, click on မြန်မာ(ယူနိုက်တက်) and if you want to access in English language, click on English.

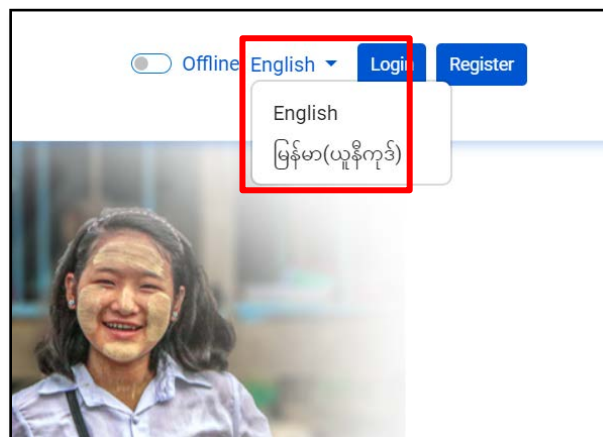

Figure 2: Language Feature

### 3.3. Offline Feature

You can activate the offline feature to download the platform data in your browser cache. This allows you to view the pages and videos/lectures you visited while being offline depending on the storage space on your browser. To enable the offline mode to cache the data of visited pages or videos, take the following steps.

Step 1: Click on offline button.

Figure 3: Offline Mode On

*Note: It will save your browsing history, pages and videos viewed while you were online. Once the offline mode is on, notification/alert message will display right below the menu bar and the storage percentage on the notification bar every time you visit a new page, will increase.*

### Step 2: Switch off your internet

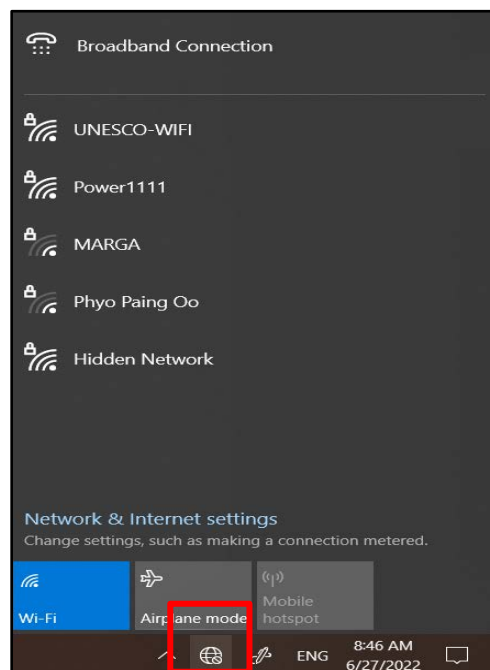

Figure 4: Switch off Internet

*Note: Offline button still needs to be switched on and view the pages or videos visited before.*

Step 3: You can access the previous pages and videos/ lectures though you are no longer connected to the internet.

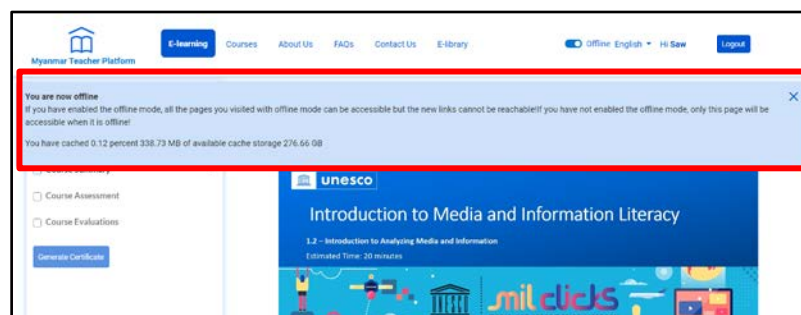

Figure 5: Play back videos without internet

Step 4: Switch off the offline button.

Figure 6: Switch off Offline mode

*Note: all the browser cache will be deleted. When you are on offline mode (switch offline button on), you will no longer receive the server updates (e.g., new courses uploaded after enabling offline mode). Therefore, it is not recommended to use offline mode if you want to do some interactions (e.g., completing a lecture section) as it applies “cache first strategy” when the offline mode is on. In other words, offline feature is suggested to use when there will be “read” actions to be performed than “write”/“update” actions.*

### 3.4. Registration

You need to have an account to access the E-learning Platform before you take a course.

Step 1: Click on “Register” which is on the top right corner of the Screen.

Figure 7: Register feature on Home screen

Step 2: It will reach to the “Registration Page” as shown in Figure 8. After you fill the form, click “Register” to be registered in system.

A screenshot of the 'REGISTER' page. The form is divided into two main sections. The left section contains fields for 'Account Type' (set to 'Learner'), 'User Type' (set to 'Independent Learner'), 'Name\*' (with a blue box containing 'sawadu21'), 'Email address\*', 'Gender\*' (with 'Male' selected), 'Password\*', and 'Confirm Password\*'. The right section contains 'Organization' (set to 'Myanmar'), 'Phone Number' (with a country dropdown and a text input), 'Notification Channel' (with 'Email (Default)' and 'SMS' options), and 'Profile Image' (with a 'Choose File' button and 'No file chosen' text). At the bottom, there is a blue 'Register' button and a link 'Already a member? Login Here'.

Figure 8: Registration page

*Note: As you are independent learner, you have to choose “Learner” in Account Type and “Independent Learner” in User Type. You need to add the correct “Email Address” and “Phone Number” because the system will send you an one-time password code to verify your account in the system. The labels which are marked with an asterisk are mandatory to give your information. Provide the name correctly (not nickname), if not, it will affect in the certificate.*

### 3.5. Login Page

On the Myanmar Teacher Platform,

Step 1: Click on **Login** as shown in Figure 5. It will reach to the Login page.

Step 2: Type **username** and **password** for your independent learner user account.

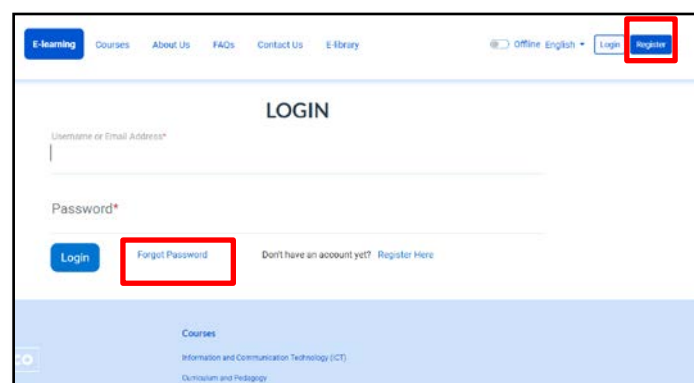

Figure 9: Login Page

*Note: The username and password should match. If not, you cannot login to the system. If you have any difficulty to login access, you can click “Contact Us” to contact admin for your issue.*

### 3.6 Reset Password

If you forget the password, you can click “Forgot Password” to reset your password again.

Step 1: Click “Forgot Password”.
